

## What is software?

Software is a term used for digitally stored data (programs and information read and written by computers).

**Adept Systems can take care of all your software needs - from selection and purchase to setup and licence renewal.**

Maintaining software for even a small business is **time consuming**. It can be difficult to decide which software is best for your situation, even more so with **critical security programs**.

**Business consumers** often end up paying over the odds for a **bloated application** and end up using only a few of its functions.

**Increase employee productivity and reduce costs with the correct software**

## Complete management service:

From **initial advice, sourcing/applying patches/updates to renewing licences**, we can manage your software to keep you operating efficiently and legally.

## Software training:

**Experienced specialists** provide **training** to make any software change over run smoothly. **Training new staff** becomes much less of a burden. **Ongoing support** can be provided for **any application or system**.

## Custom web applications:

Our web team create **web applications** to **simplify your business operations**.

Web applications can be used from **any PC** with an internet connection.

**Database** and **e-mail** features are integrated to **maximise functionality**.

## SOFTWARE SERVICES:

- ✓ **Advice** on selection and purchase of software
- ✓ **Licensing management** (compliance issues, automatic renewals etc.)
- ✓ **Technical support**
- ✓ Individual or group **software training**
- ✓ Software **troubleshooting**
