

## ➤ WEB HOSTING & DOMAIN NAMES

### What is a **web host**?

A service allowing individuals and organisations to make their website accessible via the **World Wide Web**.

### **Adept Systems have a secure onsite data centre to host your website and email...**

Our servers are **monitored 24/7** and in the last 12 months have had under 4 hours downtime. When you can't afford to have a server go down, you need us on your side.

### **Complete business continuity...**

A number of name servers are maintained at our Hull **data centre**. In the event of a server failure, **backup servers** maintain DNS records, pointers and data - this means **no loss of service** for our web hosting clients.

**Fast, secure hosting in our data centre to keep your website available 24/7**

### **Secure e-mail hosting...**

Dedicated **e-mail servers** allow you to **continue communicating** even if your onsite network malfunctions or fails.

With sophisticated **anti-virus** and **anti-spam** protection your systems will remain **secure**, and your staff won't be hassled with distracting spam e-mails.

### What is a **domain name**?

A unique address on the internet. Examples include **www.adept-systems.co.uk**, **www.hotmail.com** & **www.greenpeace.org.uk**

### **Domain name registration and management service...**

Choosing a domain name is an important step in setting up your new website.

A well researched domain name will provide **improved SEO results** and make it easier for potential visitors to **find your website**.

**Complete domain name service - advice, registration and automatic renewal**

We provide advice on choosing the most suitable domain name(s). All UK domain names are registered with **Nominet** (the registry for UK domain names), and our team can automatically renew them, allowing you to concentrate on your business tasks.

**GET IN TOUCH** for **website/email hosting** in our data centre and **domain name management...**
